1. Nature of Business and Summary of Significant Accounting Policies

Total Health Care, Inc. (the "Company"), a not-for-profit corporation, operates as a state-licensed health maintenance organization (HMO). The Company provides health insurance coverage to persons primarily in southeastern Michigan who subscribe as recipients of federal and state health benefits or as individuals.

Total Health Care, Inc. is a wholly owned subsidiary of Priority Health.

Total Health Care, Inc and its wholly owned subsidiary, Total Health Care USA, Inc., have common officers on their respective governing boards.

a. Accounting Practices

The accompanying financial statements of Total Health Care, Inc. (the “Company” or “THC”) have been prepared in conformity with statutory accounting practices prescribed or permitted by Section 1007 of the Michigan statutes of the state of Michigan for determining and reporting the financial conditions and results of operations of an insurance company for determining its solvency under Michigan Insurance law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the state of Michigan.

Statutory accounting principles differ from generally accepted accounting principles (GAAP) in their definition of assets and liabilities. Specifically, certain assets (such as intangible assets and receivables greater than 90 days) are excluded from the statutory-basis balance sheet. GAAP net assets exceed statutory net assets by approximately \$0 and \$1,311,000 at December 31, 2021, and December 31, 2020, respectively. There are no significant differences between statutory accounting principles prescribed by NAIC and the State of Michigan accounting requirements that are applicable to the Company.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Michigan is shown below:

NET INCOME	SSAP#	F/S Page	F/S Line #	2021	2020

b. Use of Estimates in the Preparation of the Financial Statements.

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Certain significant estimates exist relating to unpaid claims. It is at least reasonably possible that these estimates will be materially revised in the near term.

c. Accounting Policy

Notes to Financial Statement

Cash and Short-term Investments - The Company considers all highly liquid investments purchased with an original maturity of three months or less when purchased to be cash equivalents. Certificates of deposit in banks or other similar financial institutions with maturity dates of one year or less from the acquisition date are considered cash under statutory accounting principles. Short-term investments are stated at amortized cost.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments and long-term certificates of deposit are recorded at amortized cost, which approximates fair market value. Long-term certificates of deposit are classified as bonds on the balance sheet per statutory guidance. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in net investment income on the statement of operations. Changes in unrealized gains and losses on investments are included as a direct adjustment to capital and surplus.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) The Company had no common stocks except items noted in (7) below.
- (4) The Company had no preferred stocks.
- (5) The Company had no mortgage loans.
- (6) The Company had no loan-backed securities.
- (7) The Company had investments in health care subsidiaries which are reported at the statutory net worth value of the subsidiary under the equity method and are reported as common stocks on the balance sheet.
- (8) The Company had no joint ventures of limited partnerships.
- (9) The Company had no derivatives.
- (10) The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company's pharmaceutical rebate receivables are recorded when received, as amounts are not estimable.

Revenue Recognition and Accounts Receivable – Capitation revenue and subscriber premiums are recognized in the period that members are entitled to related health care services. A portion of the health care receivable is due from third-party payors for subscribers located within southeastern Michigan. No allowance for doubtful accounts is recorded at December 31, 2021, and December 31, 2020, respectively. Receivables greater than 90 days old are treated as non-admitted for statutory accounting purposes. Approximately \$0 and \$1,311,000 of receivables greater than 90 days old were non-admitted at December 31, 2021, and December 31, 2020, respectively.

Recognition of Medical and Hospital Expenses - Medical and hospital expenses and the related liabilities are recorded when eligible medical and hospital services are authorized or performed. Claims unpaid represent management's estimate of the ultimate cost to settle all claims incurred prior to year-end.

Physician Group Contracts - The Company contracts with certain physician groups for the provision of medical care and compensates the groups on a capitation basis. These contracts have a pay-for-performance incentive. If the providers meet the incentives, they share in the savings and a payable is recorded. During 2021 and 2020, health care payables have been recorded from/to providers.

Hospital and Other Group Contracts - The Company contracts with several hospitals and other groups. These contracts are paid under capitated fees or various other charge arrangements.

Notes to Financial Statement

Malpractice Claims - The Company has a claims-made policy for malpractice insurance. The Company's policy is to accrue for estimated costs of claims and incidents during the term of the claims-made policy.

Employee Staffing and Purchased Services Agreement – The parent company allocates an amount for administrative costs including employee staffing and purchased services. The allocated amount is paid to the parent company each month. Ultimate operational control rests with the board of directors of Total Health Care, Inc.

Income Taxes - Total Health Care, Inc. has received federal income tax exemption under Internal Revenue Code Section 501(c)(4). The Company is also exempt from state and local income taxes.

20. Fair Value Measurements

The following table presents information about the Company’s assets and liabilities measured at fair value at December 31, 2021, and the valuation techniques used by the Company to determine those fair values.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based in the lowest level input that is significant to the valuation. The Company’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Company was subject to an annual fee under section 9010 of the Affordable care Act (ACA) because it qualifies as a nonprofit corporation meeting the requirements of Section 57.2(b)(2)(iv) of the Act. The 2020 annual fee was allocated to individual health insurers based on the ratio of the amount of the entity’s net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity’s portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. This assessment was repealed in December 2019. 2020 was the last year the fee will be assessed.

25. Change in Incurred Claims and Claims Adjustment Expenses

Reserves as of December 31, 2020 were \$21,943,737. As of December 31, 2021, \$14,126,379 has been paid for incurred claims and claims adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$0 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Comprehensive Medical lines of business. Therefore, there has been a \$7,817,358 favorable prior-year development since December 31, 2020 to December 31, 2021. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced \$0 of favorable prior year claim development on retrospectively rated policies. However, the business to which it relates is subject to premium adjustments.
